Opportunity Highlights

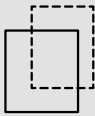

Advanced Materials Innovation

World-class carbon fibre and composite expertise centred on Deakin's Carbon Nexus and ManuFutures; turnkey labs to pilot plant pathway.

Electrified mobility testing

At Ford's 950 ha proving ground – temperature chambers, high speed track and off road loops.

Large serviced lots

Large serviced lots ready for high tech machining, light weight component fabrication and automated assembly.

Direct access

To the Port of Geelong's project cargo wharf and Avalon's wide body air freight apron for global supply chains.

Join existing businesses and organisations thriving in Geelong, including:
