PRECEDENT IMAGES

Playworks ‘Ironbark Log Obstacle Course’ with log steppers, balance beams, rope netting and stilt walkers provides a diversity of experiences and challenges.

Proludic ‘Inclusive Roundabout’ allows for a wheelcahir user to participate in play activities.
It encourages playing together while allowing the users to experience ‘thrills’ and ‘speed’.

Adventure Plus ‘Gyro 3.0’ Nest Swing is a multi directional, single point suspended nest swing.
It provides an opportunity for cooperative play, where a number of users can play at the same time.

Proludic Wheelchair Trampoline provides for ‘motor and sensory inclusion’.
It encourages playing together while learning balance skills and how to manage empty space in activities with height.
